

**OPENSIM FELLOWS PROGRAM
APPLICATION FORM**

Last Name

First Name

Name of University or Institution

Academic Title

1) Why are you interested in being an OpenSim Fellow?

2) Describe your training in modeling and simulation, including any OpenSim-specific training. Training can include coursework, workshops, or other study.

3) Describe the modeling and simulation projects you've completed, including any OpenSim-specific work. Include major research projects and models, software tools, or simulation datasets you've created.

4) Describe your contributions to the OpenSim community. Contributions can include shared models, software tools, and data sets, workshops, courses, webinars, user forum activity, or other community engagement.

5) Outline your future plans for research and contributions to the OpenSim community.
